May/June 2018

MARK SCHEME

Maximum Mark: 45

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

IGCSE™ is a registered trademark.

This document consists of **12** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

1(a)	<p><i>2 marks for a valid answer, clearly explained</i> <i>1 mark for a vague, incomplete or marginal answer</i></p> <p><i>Indicative developed answers</i></p> <ul style="list-style-type: none"> • The special audit may suggest that someone was trying to find evidence against Mr Anson, in order to give a reason for removing him from the investigation into Eastshire Police. It is a reason to suspect that the allegation used as a basis for his suspension may have been fictitious. • The fact that Mr Anson was cleared may have indicated that a more sophisticated plot would be needed in order to remove him from the inquiry into Eastshire Police. • The fact that Mr Anson was cleared re-emphasises his reputation as someone of impeccable honesty and thereby might have provided a motive to replace him as leader of the inquiry into Eastshire Police by someone more open to being influenced. 	2

2(a)	Because the article is taken from an ‘Advertising Feature’ [1], the author is presumably seeking to sell sauna equipment [1], which gives him/her a vested interest to exaggerate the benefits of saunas/omit any negative aspects of taking a sauna [1].	2

2(d)	Level 3 5–6 marks	A reasoned argument, which uses and evaluates all or most of the evidence provided.	6
	Level 2 3–4 marks	A simple argument, which uses and/or evaluates evidence.	
	Level 1 1–2 marks	A weak answer, which makes some correct reference to evidence but consists of opinion and/or assertion rather than argument or a weak argument which makes no reference to evidence.

3(c)	<p><i>Marks for each evaluative point as follows, up to a maximum of 5 marks:</i></p> <p><i>2 marks: Valid evaluative point, clearly expressed.</i> <i>1 mark: Weak attempt at a valid evaluative point.</i></p> <p><i>Paragraph 1</i></p> <ul style="list-style-type: none"> • <i>Ad hominem:</i> The reference to opponents as ‘dinosaurs’ seeks to undermine their reasoning by means of a personal attack. • <i>Appeal to popularity / assumption:</i> the IC relies on assuming that this claim is true because nearly everyone accepts it is true. • <i>Assumption / Exaggerated inference:</i> the IC goes further than justified by the reasoning. Question	Answer		Marks
3(d)	Level 3 4–5 marks	Developed, coherent argument. Reasons strongly support conclusion. Development may include intermediate conclusion or apt examples. Simply structured argument – 4 marks. Effective use of IC etc. – 5 marks.	5
	Level 2 2–3 marks	A simple argument. One reason + conclusion – 2 marks. Two or more separate reasons + conclusion – 3 marks.	
	Level 1 1 mark	Some relevant comment.	
	Level 0 0 marks	No relevant comment.	
	<p><i>Maximum 3 marks for wrong conclusion or if conclusion is implied but not stated.</i></p> <p><i>No credit for material merely reproduced from the passage.</i></p> <p>Specimen level 3 answers</p> <p><i>Support (114 words)</i></p> <p>There should be limits to inequality of incomes in society, because it is morally offensive to estimate the value of one person as thousands or even millions times greater than another. The finest sportspeople deserve to be paid well, because they give a lot of pleasure to many people, but the current excessive wages are distorting the nature of sport, because competitions have become about who can pay most, instead of who can play best.</p> <p>In almost all sports, the most successful performers acquire great wealth before they have the maturity to use it responsibly. So these high salaries are wasted on them.</p> <p>Therefore top sports stars are paid more than they are worth.</p> <p><i>Challenge (123 words)</i></p> <p>Watching and supporting sport is the main leisure activity of very large numbers of ordinary people. They expect to pay for their pleasure, and they want most of this money to go to the stars whose skills, dedication and efforts provide the entertainment. Although the finest sportspeople are paid very high salaries, there are not many of them and they do not stay at the top for long. So the rewards they receive seem less excessive if averaged out over a lifetime. In addition, many high-earning sportspeople cannot be said to have wasted their wealth, because they have invested it into developing their sports and giving opportunities to disadvantaged young players.</p> <p>Therefore top sports stars are not paid more than they are worth.</p>
